REGALABS

## PRIVATE LABEL

### EXPAND PRODUCT LINE

Private label your chosen products and get an immediate increase in your offerings. By offering variety, you'll be able to create new bundles or deliver add-on products not previously available. With an expanded product line, companies will also gain more credibility in the eyes of a consumer.

### IMPROVE SALES

By offering a wide variety of products, supplement retailers can reap the benefit of improved sales. Having variety will help boost your sales and strengthen your brand, not to mention setting the stage for more advanced product planning as you expand your offerings in the future.

### INCREASE BRAND EXPOSURE

Regalabs can help promote exposure for you by allowing you to brand private label purchases. With most private label supplement manufacturers, you won't have full control over branding, but we understand the importance it has in your marketing strategy and allow you to retain the image you have already built.
